Professional Summary

Full-Stack .NET trainee at the **Digital Egypt Pioneers Initiative (DEPI)** with a solid foundation in **C#** and **Object-Oriented Programming** (basic and advanced levels). Computer Science undergraduate at **Minufiya University** with hands-on exposure to **JavaScript** and **Python**. Detail-oriented and continuously building practical skills through structured, project-based learning. Seeking a junior **Full-Stack / .NET Developer** role to apply and grow these skills in a professional environment.

Education

Minufiya University **Menoufia, Egypt**
Bachelor of Science (B.Sc.), Mathematics and Computer Science *Expected Sep 2028*

- **Relevant Coursework:** Object-Oriented Programming (Basic & Advanced), Programming Fundamentals, Mathematics, Computer Science Theory

Experience

Digital Egypt Pioneers Initiative (DEPI) **Aug 2026 – Present**
Full-Stack .NET Trainee *Egypt*

- Selected for a competitive, government-backed technology training initiative focused on **full-stack .NET development**
- Applying **C#** and both basic and advanced **Object-Oriented Programming (OOP)** concepts to hands-on coding exercises
- Practicing problem-solving daily through structured, **project-based coursework** alongside a cohort of trainees

Academic Background

Object-Oriented Programming (OOP) — Basic & Advanced Levels

- Completed both levels of OOP coursework using **C#**, covering classes, inheritance, polymorphism, and encapsulation

Programming Fundamentals — Python & C#

- Built a solid foundation in programming logic, data structures, and problem-solving through coursework in **Python** and **C#**

Projects

Library Management System | C# Console App

- Built a console-based library system with **Book**, **Member**, and **Library** classes applying **OOP principles** (encapsulation, inheritance)
- Implemented core features: adding/searching books, member registration, and a full **borrow/return workflow** with availability tracking

Student Management System | C# Console App

- Developed a CRUD console application to manage student records, including add, update, remove, and view operations
- Implemented automatic **average grade calculation** per student and **exception handling** for invalid numeric input

Technical Skills

Languages & Frameworks: C#, .NET, JavaScript (Vanilla), Python

Concepts: Object-Oriented Programming (OOP), Problem Solving, Data Structures Fundamentals

Languages

Arabic (Native) • English (Professional Working Proficiency)
